## WORK EXPERIENCE

---

### Software engineer

**Orange Vtech Pvt. Ltd** [ 01/05/2024 – Current ]

City: Delhi | Country: India

- **Improved system performance by 25%** by identifying and optimizing bottlenecks in component rendering and network communication across a large-scale IoT environment consisting of over **10,000 connected devices**, resulting in faster data transmission and reduced downtime.
- **Boosted organic search rankings and increased revenue by 50%** by executing a comprehensive SEO strategy, including **100+ high-quality backlink acquisitions, meta tag restructuring**, and targeted **keyword optimization**, leading to a significant uptick in website traffic and conversion rates.
- **Reduced bounce rate by 35%** and **increased average session duration by 60%** by redesigning UI/UX workflows and implementing performance-first principles like lazy loading, asset compression, and mobile-first responsiveness.

### Software engineer

**Vir Softech Pvt. Ltd.** [ 01/05/2023 – 30/04/2024 ]

City: Noida | Country: India

- **Accelerated UI development by 35%** by implementing a scalable, **component-based architecture using React and Redux**, significantly reducing repetitive code, enabling reusability, and improving maintainability across multiple features and modules.
- **Launched a responsive web application** in collaboration with a **team of 3 developers**, resulting in a **20% increase in customer engagement** through improved mobile accessibility, intuitive UI/UX, and faster load times on all major devices.
- **Enhanced developer efficiency by 45%** by establishing a shared component library, introducing code linting and formatting standards (ESLint, Prettier), and organizing regular peer code reviews to ensure consistency and code quality.

## EDUCATION AND TRAINING

---
